

## EDUCATION

- **CMR Technical Campus, Hyderabad** 2022 – 2026  
*Bachelor of Technology – Computer Science & Engineering (Data Science)* CGPA: 8.32 / 10

## PROFESSIONAL SUMMARY

Entry-level Product Designer with a strong foundation in UI/UX design, user-centered design principles, and visual aesthetics. Experienced in creating wireframes, user flows, and intuitive interfaces. Background in Computer Science enables effective collaboration with developers and data-driven design decisions in Agile environments.

## PROJECTS

- **System Monitor Dashboard – UI Design Project**
  - Designed an intuitive dashboard interface to visualize real-time CPU, memory, and disk usage.
  - Created wireframes and layout structures emphasizing visual hierarchy and usability.
  - Improved readability and interaction flow for quick system monitoring.
  - **Tools:** Figma, Python, Tkinter
- **Chatbot Interface Design**
  - Designed conversational UI screens and interaction flows for a chatbot application.
  - Structured responses to improve clarity, usability, and user engagement.
  - Applied user-centered design principles for better interaction experience.
  - **Tools:** Figma, Canva, Python

## TOOLS & TECHNOLOGIES

- **Design Tools:** Figma, Canva
- **Front-End Basics:** HTML5, CSS3, JavaScript, Bootstrap
- **Version Control:** Git, GitHub

## CERTIFICATIONS

- CSS Essentials – Cisco Networking Academy
- Oracle Fusion Cloud Applications CX – Oracle University

## ACHIEVEMENTS & ACTIVITIES

- Participated in Tech Titans 2025 (Quiz, Hack with AI, Essay Writing)
- Secured 2nd position in Kabaddi among 15+ teams (2020)
- Active contributor on GitHub and participant in tech communities
